PROFESSIONAL SUMMARY

Dynamic engineering leader with a proven track record, I've lead teams using a variety of different workflows and am comfortable adapting to almost any environment. Expert in PHP and Laravel and a strong communicator, I foster collaboration and innovation, ensuring timely delivery of high-quality products while managing lean budgets and working on retaining top talent. Although PHP is my primary language I am comfortable working within a variety of languages and frameworks.

SKILLS

CLIENT SIDE: HTML5/CSS3; Bootstrap; JavaScript; JQuery; Vue JS; React

SERVER SIDE: PHP and Laravel; Python; Perl (Primarily used in building an Auto Dialer project for communication with Asterisk PBX software)

DATABASE: SQL; Percona; Maria DB; NoSQL

OTHER LANGUAGES: C++; C#; Java

ALEXANDER PERRY

Lead Software Engineer

EXPERIENCE

Lead Software Engineer
Aug 2023 – Sep 2025

Galactic Advisors LLC — Nashville, TN

- Built software for use in 3rd party Penetration Testing with a focus on supporting MSPs and protecting clients from malicious actors
- Refactored legacy codebases to improve maintainability and extensibility
- Created detailed technical documentation for internal use by other engineers
- Lead a team on a full overhaul of our front end portal

Director of Engineering
Mar 2022 – Jun 2023

RAP Success Systems — Rochester, NY

- Oversaw the acquisition and integration of another tech company with a full product suite into our existing tech offerings
- Shifted the company culture to an agile methodology and streamlined procedures to facilitate delivery of development and engineering milestones in a timely fashion based on business needs
- Continued development and design of new innovations as the company grew
- Management of a lean budget post acquisition to ensure retention of key employees and prevent degradation of product quality

Senior Full Stack Web Developer
Aug 2020 – Mar 2022

RAP Success Systems — Rochester, NY

- Lead the company's transition from a Real Estate Brokerage to a SaaS company providing service to Real Estate Agents
- Redesigned and rebuilt the entire database structure on newly acquired hardware I selected for this purpose
- Updated company policies on data retention and version control for the growing number of functions and applications
- Built and documented a fully functional REST API for integration with third parties providing CRM management and Data Enhancement services for our clients
- Developed integrated functionality with multiple third parties to increase our service offerings and enhance our existing suite of services

Web Developer
Dec 2019 – Jun 2020

DoublePositive LLC — Baltimore, MD

- Worked on a small team of LAMP stack developers in a larger group composed primarily of .NET programmers
- Focused on the maintenance and integration of newly acquired legacy products from ClickSpark
- Extensive use of APIs to integrate with the .NET team and rebuild and stabilize large bases of code

Web Developer   Apr 2012 – Dec 2019

ClickSpark LLC (Acquired by DoublePositive LLC)   Henrietta, NY

- Designed and maintained front and back end web applications and tools for use by call center agents as well as support staff in the lead generation industry

- Wrote and maintained web based applications for workforce management, data analysis and lead scoring, dynamic script generation, and more

- A major project I developed was the construction of a TCPA compliant auto and manual phone dialing system using the asterisk PBX engine. This product is currently in use in multiple Call Centers across the world

Interior Fire Fighter (Volunteer)   Feb 2011 – Jan 2015

West Brighton & Henrietta Fire Disticts   Brighton & Henrietta, NY

- Volunteered at West Brighton and then Henrietta Fire Districts

- Received multiple certifications and training in the handling of a variety of emergency situations

- My time as a fire fighter placed me in situations that showcased my ability to work with a team in fast moving and unpredictable situations and is an experience I look back on with pride

EDUCATION

Completed coursework towards Bachelor of Science (B.S.) in Computer Science   May 2010

                                                                     14619, NY

Rochester Institute of Technology
